

Modern Stereo for Your Classic ... Fits in Your Dash!

InfiniMount adjustable shaft system adjusts to fit any dash opening. The RetroSound Zuma radio looks like your original radio – down to the authentic push-button styling – but is packed with all the features of a modern stereo. Featuring a patented InfiniMount adjustable shaft system, this radio is made to fit virtually any dash opening. This compact unit has a high-quality RDS AM/FM tuner that lets you view artist's name and song title on the screen.

Two rear-mounted auxiliary inputs let you plug in your iPod or other portable devices, and a rear-mounted USB port lets you play digital WMA or MP3 music files via a USB flash drive. The large LCD display features dual-color (white or green) illumination.

Mounting Kits are Sold Separately

Custom Mounting Kits

Custom mounting kits include retro styled knobs and are available with chrome or black bezel.

- Rear-mounted USB port for playing WMA or MP3 digital music files.
- Two rear-mounted auxiliary inputs.
- 30 AM/FM pre-sets.
- RDS capable tuner allows you to view artist's name and song title.
- High power 25 watts x 4-channels RMS amplifier.
- Compact 3-1/2" x 5-1/2" x 1-1/2" installation size.
- Front and rear RCA pre-outs.

8" Powered Subwoofer

This 8-inch powered subwoofer is an excellent addition to your vehicle's audio system and is compact enough to install conveniently without sacrificing valuable space. Housed in a rigid die-cast aluminum chassis for better heat dissipation and powered by a built-in 100-watt amplifier, this subwoofer is able to reproduce frequencies down to 35Hz. Features include a fully adjustable crossover network between 50-100Hz, independent gain (volume) and 0 or 180-degree phase control. The subwoofer can be connected to your radio with low level input RCA connectors or wired directly to your radio through the high level input using the supplied wiring harness.

EXCLUSIVE**

The A-pillar trim fits exactly as your original trim and adds a custom molded, adjustable tweeter to enhance the audio in your SUV. Each speaker has an inline filter on the wire leads that must be used to block out the low and mid-range frequencies. The A-pillar trim comes in black and can be painted to match the color of your interior.
